

**To all customers of Springfield Caravans,**

Following Government instructions, regarding COVID-19, issued last night (23/03/2020) we have taken the decision to close all of our Caravan Parks. As a company we are making the health, safety and welfare of our staff, customers and local community our most important consideration.

This closure will be in place from the morning of Thursday 26th March 2020. No persons will be allowed to enter any park and those on the park currently must leave by Thursday morning.

This policy will remain in effect until Government Guidance allows us to re-open. We will inform you of any change as soon as possible.

Please note, all stop taps will be turned off from Thursday as a precautionary measure but park lighting and electricity will be left switched on.

In the meantime, we are happy to help anyone who needs their gas turning off or fridge emptying, providing we have a key for access.

We will be making every effort to maintain the parks to their normal high standards during the period of closure to ensure they are ready for your return after restrictions are lifted.

We hope that this will be a very short-term measure and that yourself and your family stay safe and well in these difficult times.

If you have any queries regarding the closure, please call the reception on 01754 763441 and they will be happy to help.

Kind Regards,  
Springfield Caravans.
